Independent Auditor's Report
on Applying Agreed-Upon Procedures

The Honorable Valerie A. Woodruff
Secretary
Department of Education
Townsend Building, Suite 2

Dover, DE 19903-1402

Mr. Charles E. Taylor
Managing Director
Providence Creek Academy Charter School

Clayton, DE 19938

Dear Secretary Woodruff and Mr. Taylor:

We have performed the procedures enumerated below, which were agreed to by the Department of Education (DOE) and Providence Creek Academy Charter School. The procedures were performed solely to assist the specified parties in evaluating the School's compliance and the effectiveness of the School's internal control over compliance with State laws and regulations in regard to Student Accounting and Enrollment. Procedures were performed for Student Accounting and Enrollment as of September 30, 2005. Management of the School is responsible for the School's compliance with those requirements.

This agreed-upon procedures attestation engagement was performed in accordance with *Government Auditing Standards* (2003), issued by the Comptroller General of the United States and the attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures are as follows:

- Determined if the Charter School's policies and procedures for preparing, reviewing and reporting the September 30th student count are adequate.
- Determined if the Charter School reported the correct number of eligible students to the Department of Education (DOE) and calculate the dollar impact of disallowed students, if applicable.

The Honorable Valerie A. Woodruff
Mr. Charles E. Taylor
Page 2

- Selected ten percent (or a minimum of five) "Individualized Education Program" (IEP) files at the Charter School and verified that each file contained the required documentation in accordance with DOE's Administrative Manual for Special Education Services and calculated the dollar impact of disallowed students, if applicable.
- Selected ten percent (or a minimum of five) student files enrolled in the Cooperative Education Program and Diversified Occupation Programs and confirmed that the students' files contained required documentation in accordance with the DOE's Administrative Directives. Calculate the dollar impact of disallowed students, if applicable.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with specified laws. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of DOE and the School and should not be used by those who have not agreed to the procedures and have not taken responsibility for the sufficiency of the procedures for their purposes. However, this report is a matter of public record and its distribution is not limited. This report, as required by statute, was provided to the Office of the Governor, Comptroller General, Attorney General, Office of Management and Budget, and the Department of Finance.

Sincerely,

OFFICE OF AUDITOR OF ACCOUNTS

SCHEDULE OF FINDINGS

Procedure Agreed Upon #1

Determined if the Charter School's policies and procedures for preparing, reviewing and reporting the September 30th student count are adequate.

Finding

The School does not have sufficient written internal policies and procedures governing the preparation, review and reporting of the September 30th student count.

The State of Delaware Budget and Accounting Policy Manual states, "Department or agency heads are responsible for establishing and maintaining an effective system of internal control." Additionally, the manual states, "Internal control provides management with reasonable assurance that its policies and procedures are implemented and consistently followed to ensure efficient and effective organizational operation." Further, the manual states, "A well designed system of controls must include written policies and procedures to ensure that each control objective is met."

The School does not have written policies and procedures for the September 30th count. Lack of sufficient policies and procedures may result in an inaccurate student count at September 30th.

Recommendation

The School should develop and implement in-house written policies and procedures governing the preparation, review, and reporting of the September 30th student enrollment figures to DOE. These policies and procedures should incorporate information such as:

- Attendance taking methodology
- Verification of attendance by teachers and upper level administrator
- Gathering and maintaining documentation that supports attendance and reported enrollment figures (medical excuses, transfer/entry/withdrawal forms, homebound, placement in an alternative education setting, engineering, etc.)
- How the School ensures that required information is included on IEP's (necessary signatures, goals, benchmarks, and objectives, etc.)
- Reference to pertinent rules and regulations stipulated by DOE and/or Delaware Code
- Record retention policy

Auditee Response

Providence Creek Academy accepts the Office of Auditors of Accounts finding. However, note that there were no findings in the September 30th count that would affect the final enrollment. Providence Creek Academy has received a copy of the Newark Charter School Policy and Procedures. The Policy and Procedures from Newark Charter School will be reviewed, modified then recommended for adoption by the Providence Creek Academy Board of Directors.
